The colour phenomenon speaks for itself. Colour Energy has just created a forum to facilitate what we need to appreciate from Mother Earth. Thank You for that forum.

## *Philosophy of Colour Energy*

Colour is pure energy. Each colour of the rainbow has a different frequency and power that reaches us through light rays. Light stimulates our body's endocrine system, which is connected to our energy centres (chakras). All organs, body systems and functions are connected to these energy centres. Light consists of the seven colour energies: Red, Orange, Yellow, Green, Blue, Indigo and Violet. Our body absorbs light energy for nourishment on a daily basis. As well, our other senses can receive additional colour energy through a balance of different coloured foods, herbs, vitamins, minerals, gemstones, aromatherapy, essences, sound, colour therapy eyewear, clothing, decor and colour bathing.

## *Colour Energy Mandate*

**The concept of COLOUR ENERGY is to educate and provide you with products that you can use to tap into the power of colour.**

# Bath & Body Care

I have been reading about Colour Energy for some time and finally tried one of your Colour Baths the other day. WOW! I must say even though I believe and have experienced many times how colour effects me, I still held some scepticism about Colour Baths. Well, not any more. By the time I climbed out of my vibrant green bath (20 minutes only) I was a new woman in a way that no other bath has transformed me. I'm sold. I have an Esthetic/ Reflexology Studio in my home and am very interested in carrying your Colour Baths to retail in my Studio to continue my support of clients on their journey to balance and happiness.

## Colour Bath®

Bathe in a colour of the rainbow and energize that energy centre (chakra)! Water is the giver of life and energy flows from colour... and together they create the ultimate bath experience!

- COLOUR BATH is organic and non-toxic... Safe to use, great for people of all ages and for people with skin sensitivities or allergies.
- COLOUR BATH is known to change the colours of one's aura... A proven chakra tool that increases an energy centre's vitality.
- Colour has been scientifically proven to influence one's mood... Even the Mental Health Association has stated that colour enhances a person's state of mind and general well-being.

By simply bathing in a pure hue you can energize the correlating colour's chakra on an emotional, mental, physical or spiritual level.

Note: COLOUR BATH is not a synthetic agent or a chemical dye. The colour pigment is totally natural and very vibrant. Colour itself is a healing vibration and the stronger and more pure the colour, the more powerful the energy! COLOUR BATH was created for its colour therapeutic and healing properties. A simple colour treatment that helps to balance your chakra system!

### Testimonial

As a small child enduring much abuse, about the only thing that gave me hope was color. As a therapist and Reiki Master teacher, I incorporate color into all my healing sessions. And I restore myself by taking Colour Baths before work. My daytime job as a crime victim counselor is stressful and intense. The baths before work in the morning help me stay balanced and sensitive in my work with people. Just wanted to thank you for your understanding of the healing energy of color.

For thousands of years, the minerals found in the Dead Sea have been reported to offer extraordinary benefits. In the Bible it is mentioned that the Queen of Sheba was presented with Dead Sea Salts from King Solomon upon her visit to the Holy Land. As well the Empress Cleopatra apparently urged Marc Antony to conquer the Dead Sea region so that she would be guaranteed a bountiful supply of the Dead Sea minerals.

## Testimonial

I have been promoting anti-aging products for several years and am always looking for tools that support beauty and wellness. When I tried your Dead Sea Salts for the first time (using only 2 Tablespoons as suggested) I was surprised at the results. After the bath my skin felt fantastic (very soft and supple), my body was extremely relaxed and no muscle aches afterwards. I also experienced a very detoxifying effect. Powerful, powerful!

I plan on promoting your Salts and using them myself regularly as part of my anti-aging treatments. As well I have been using your Rose Hydrosol Spray and have noticed that my skin is softer and no longer dry.

## The Healing Power of the Dead Sea... In Your Bath

Since ancient times Dead Sea Salts have been known for their therapeutic and healing properties. Our salts are 100% pure authentic Dead Sea Salts and are unscented, containing no fillers or additives.

The Dead Sea is one of the world's richest sources of minerals. Therefore, the salts that come from the Dead Sea have a high mineral content. Dead Sea Salts are noted for their therapeutic qualities that help relieve sore muscles, arthritic and rheumatoid pain, psoriasis, eczema, tension headaches, joint and foot aches while adding nourishment and softness to skin. They can assist

with certain skin conditions by restoring lost essential minerals thus giving the skin a more healthy glow and youthful appearance. As the salts absorb moisture they help detoxify the body. This includes absorbing cellulite and toxins through the pores of the skin.

Water mixed with Dead Sea Salts has been shown to promote a greater feeling of well-being. As well, since an anti-wrinkle effect is often a very desired result from the consumer viewpoint, it is quite certain that Dead Sea Salts will be a regular and successful seller in today's health and wellness market.

## Testimonials

I'm the one that's been blowing your colour therapy oils off the shelves. My clients LOVE them as do I.

**Rev. Jessica Taylor, Intuitive Edge, YMCP/certified Instructor**

It is all I can do not to open all of these bottles and smell them, but I have been into the lavender and it is just wonderful. So much nicer than any other of what was supposed to be really high quality, and may have been but just didn't have the same awesome smell. Really looking forward to the others.

**Raven Cloudwalker, Cloudwalker Studios, Richmond, BC**

...I have used your products before and recommend them to anyone who is looking for aromatherapy products... my friend Joanne introduced your oils to me and I will never go back to any other oils... I also have another friend Barb who uses your oils and loves them too... Thanks for a wonderful high quality product.

... One I really liked was IMMUNE – after using all sorts of very expensive athletes foot products and the athletes foot kept coming back I tried IMMUNE on my feet. It worked and healed all the cracks in my feet. It also worked rather well on my shingles. Both athletes feet and shingles responded to the IMMUNE. Also the headache remedy worked great. Thanks. I would like to order more IMMUNE.

# Colour Energy® Floral Waters

Floral Waters, technically known as hydrosols, are the by-product of the steam distillation process that produces essential oils. Hydrosols contain certain qualities of the essential oil, as well as the water-soluble components of the plants.

Used as astringents, toners and healing sprays, floral waters are popular in esthetics and spa treatments. Rosewater (rose hydrosol) is most popular for its scent as well as its anti-aging and healing benefits and is also a common additive in lotions and creams. Have fun & experiment with the different waters!

**SANDALWOOD** – Sandalwood balances both dry and oily skin, is useful in treating acne, and useful in soothing barber's rash (great aftershave for both men & women). Emotionally, it relaxes stress and soothes irritation.

**ORANGE BLOSSOM** – Calming, hydrating, rejuvenating, uplifting, anti-depressant, stress reliever, mildly astringent and suitable for all skin types. This floral water is highly recommended for baby care as an after bath spray to nurture and protect baby's delicate skin.

**LEMONGRASS** – Lemongrass floral water is an antiseptic and astringent oil. Its natural anti-oxidant properties work on shrinking enlarged pores. Lemongrass is a refreshing, cleansing and stimulating tonic on the body and its tissues. Treats problems with the digestive system, usually in children.

**SPEARMINT** – Spearmint floral water is a very soothing anti-inflammatory. It relieves spasms. It is used for indigestion, gas and colic, as well as hiccups, fever and upper respiratory tract infections in children. Deliciously uplifting, this hydrosol uplifts the spirit and calms the mind.

**ROMAN CHAMOMILE** – Use for its anti-inflammatory benefits, as a compress for migraines or to relieve diaper rash and teething. Suitable for sensitive, inflamed, itchy or dry skin, sunburn or for puffy eyes.

**MYRTLE** – Myrtle flower water is useful for breathing problems, such as the common cold or a stuffy nose. It's mild enough for children. Relieves fatigue and is refreshing & reviving. Also nice for diaper maintenance!

**LAVENDER** – This floral water is soothing for hot flashes, sunburns, itchy skin and sunstroke. As well, it is suitable for all skin types and skin problems such as eczema, razor burn, etc.

**RAVENSARA** – Ravensara is immune enhancing and helpful for sinus infections and flu and flu-like virus infections, especially if used at the first sign.

**ROSE** – Rose water is a wonderful skin toner as it known for its anti-aging benefit as well as its revitalizing, regenerative, hydrating, nourishing and anti-inflammatory properties. Use as a gargle for sore throats.

## EVERYDAY USES:

**In addition to being naturally pure, floral waters are gentler than most skin toners and therefore are an excellent addition to a skin care regimen.** During hot summer days or when travelling, floral waters may be used as a facial spray to cool, revitalize and hydrate the skin and instantly rejuvenate your mind and spirit. Spray a few squirts into the air as a natural and refreshing room spray.

Floral waters are a wonderful addition to a bath or use on a cold compress. They are safe to use for children, the elderly or those with chronic afflictions. Try adding 10ml/.35oz of your favourite hydrosol to a jar of our Dead Sea Salts or enhance COLOUR ENERGY's all natural unscented lotion or shampoo with several drops.

## Testimonials

... I wish to thank you, once again, for your kindness and consideration towards my aromatherapy students and graduates. From the start, Ashbury's Aromatherapy (a division of COLOUR ENERGY) has provided all the carrier oils, hydrosols and many essential oils needed for the student labs. I have always found your service and products to be of the highest quality. But as an instructor, I am most appreciative of the time you have taken to help my students and graduates select their oils, carriers, bottles and other aroma-therapy supplies upon beginning their practice. It is not common to find such help, in today's competitive, fast-paced world.

Personally, I have appreciated using Ashbury's products in my own private practice. Your quality has been consistently high, making the results I get with clients consistently high as well. This is a win-win situation for everyone!

**Pat Antoniak, RN, BN, CAHP, Nurse-Aromatherapist, Natural Comfort Aromatherapy, Delta, BC**

Thanks for sending our essential oils and hydrosols so promptly! ...the oils are definitely getting used with the children regularly!

### ALUM VERSUS ALUMINUM:

Alum and Aluminum are chemically different. Alum is not absorbed due to its ionic charge and therefore is safe to apply to the skin. Whereas, soluble forms of Aluminum can be absorbed—and have been linked as a contributing factor to rising rates of breast cancer—and causing energy blockages in your lymph system.

1 ml/.035oz of liquid is approximately 25 drops. Use a ratio of 3% to 5% essential oils to unscented base products (such as COLOUR ENERGY's shampoo, conditioner, shower gel, bubble bath, carrier or massage oils) for the best results.

## Natural Liquid Deodorant

Our Liquid Deodorant has the same components of natural Potassium Alum as the deodorant stone, but is now available in a liquid form through COLOUR ENERGY!

Also the liquid spray allows for easier application through body hair and is simple to use. The Liquid Deodorant will not stain clothing and is aroma free, although one could add a personal scent (ask about our favourite oils to add). The Natural Liquid Deodorant is environmentally friendly and safe to use daily as there are no chemical propellants. Just spray on the deodorant, wait for a few moments, let dry, and you are protected. Available in 120ml/4oz or 240ml/8oz spray bottles.

## Unscented & Natural Products

COLOUR ENERGY carries several unscented products so that you can create your own line of therapeutic hair and skin care. Simply add 3-5% essential oils to unscented base products. Available in various sizes, including bulk.

### UNSCENTED SHAMPOO, CONDITIONER, SHOWER GEL & BUBBLE BATH

COLOUR ENERGY is committed to providing the most natural hair and body care products while maintaining the safeness. Our Shampoo, Conditioner, Shower Gel and Bubble Bath are free of Sodium Lauryl Sulphate, Cocamide DEA and foaming agents. The emollients and humectants we use are natural sources (Aloe Vera, Panthenol and vegetable glycerine).

All our hair and body care products are made with a minimal amount of preservatives to prolong the shelf life and prevent bacteria growth. Our unscented products are manufactured to be "people friendly" and effectively cleanse without stripping the natural oils from the hair and skin.

### ALL NATURAL, UNSCENTED MOISTURIZING LOTION

Made from all natural ingredients, this superior lotion is excellent for all skin types as a face or body lotion. Add your favourite essential oil or blend to enhance the moisturizing experience. Created for everyday use, for adults and children.

### ALL NATURAL, UNSCENTED ESSENTIAL OIL DISPERSANT

Dispersant (solubilizer) mixed with essential oils is used to uniformly disperse the oils in water. Essential oils should never be applied directly to the skin without a carrier, such as water, an unscented lotion, shampoo, conditioner or any of our carrier oils listed on p. 13. Therefore, when making room or body sprays, facial mists and other skin care products, it is recommended to mix your aromatherapy oil or blend with a dispersant prior to adding other ingredients, including your bath.

# Heavenly Scent Ultrasonic Aromatherapy Diffuser, Humidifier & Negative Ionizer

This Ultrasonic Aromatherapy Diffuser is a state-of-the-art system that ionizes essential oil molecules into the air while enhancing the oil's biological effects – ideal for improving the atmosphere of any home, workspace or enclosed area.

Heat-free diffusion constitutes the most effective method for essential oil distribution as the dispersed oils remain suspended longer in the atmosphere, penetrating better in the respiratory system. Whereas, heat causes the rapid evaporation of the more volatile components of the oil, resulting in a loss of the natural fragrance and their healing abilities.

Water with a few drops of a COLOUR ENERGY therapeutic essential oil are simply and quickly distributed via the Diffuser's ultrasonic vibration (2.5 million vibrations per second), which completely breaks the essential oil into tiny micro-particles. This enables the body to use the healing ionized water particles as you breathe in their wonderful aroma. These small molecules have a deeper biological effect as they are more easily absorbed by the lungs for greater therapeutic effect.

The "instant vapour technology" of our Ultrasonic Diffuser allows you to instantly enjoy the benefits of aromatherapy. This process is the most powerful and effective means of dispersing essential oils into an extremely fine mist of micro-particles and millions of molecules without heat for maximum health benefits. Also, most Nebulizer manufacturers do not recommend that you use thick oils such as Patchouli as they can clog their system; however, our Ultrasonic Diffuser can break apart even heavy oils into micro-particles!

The Ultrasonic Aromatherapy Diffuser has a built-in interval timer allowing for continuous dispersing or intermittent cycles (economical and beneficial for all-day dispersing of oils). The easy to fill plastic cup needs no cleaning or additional care. An automatic shut-off feature is activated when water reaches the minimum level.

## IONIZER RESEARCH:

Ion researcher Michael Terman, PhD at Columbia University in New York has proven that negative ion generators relieve depression as much as antidepressants in people with winter and chronic depression.

"Generally speaking, negative ions increase the flow of oxygen to the brain; resulting in higher alertness, decreased drowsiness, and more mental energy," says Pierce J. Howard, PhD, author and director of research at the Center for Applied Cognitive Sciences in Charlotte, N.C.

Technically: "Ions are charged particles in the air that are formed in nature when enough energy acts upon a molecule such as carbon dioxide, oxygen, water, or nitrogen to eject an electron from the molecule leaving a positively charged ion. The displaced electron attaches itself to a nearby molecule, which then becomes a negatively charged ion. It is the negative ion of oxygen that affects us the most." From "Whole Self", Spring 1991, an article entitled "Ions and Consciousness."

## Testimonials

... About a month ago a friend gave me the exquisite Colour Energy Chart and I keep it in the pages of our family Bible in my mom's room. You see, my mother Bilia was in hospital for a month, diagnosed with terminal uterine cancer, metastasized to her legs. I, her only daughter, brought her out of hospital, against doctor's advice, essentially "to die" as the doctors told me. Well, I knew differently. I placed mom's bed in a room in her home with the most windows, threw away the heavy curtains and hung long swaying, translucent fabrics from the windows, red, green, purple... the room filled with natural light as well as light streaming thru the silk and chiffons. At any rate, within a week her attitude, appetite and health improved dramatically... to the surprise of the doctors and nurses. I've used the Colour Chart to help me decide what to change and add to her room. I've already learned so much from it. Bless you once again, on behalf of mom and I for your wonderful work.

## Colour Energy® Personality Test

### WHAT COLOUR ARE YOU?

Take the COLOUR ENERGY Personality Test (CEPT) to learn more about yourself and how you operate on seven levels of "intelligence"! As each chakra centre defines our personality, the CEPT is a simple and accurate method that enables you to teach you and/or your clients where one's colour strengths and weaknesses lie – how one uses her/his chakra system. With insight into which direction you may need to focus on for optimal body, mind and spirit wellness, the CEPT is an incredible tool to guide people in the appropriate course of action.

The CEPT is an excellent therapist aid that supports your work by incorporating an inexpensive and unbiased report. This self-analysis gives you a point from which to start and by using Colour Energy products, will help to balance your chakra system.

### DID YOU EVER WONDER WHY YOU LOVE CERTAIN COLOURS AND DISLIKE OTHERS?

The COLOUR ENERGY Personality Test explains the amazing world of colour and how colour affects every aspect of your life including the way you think and feel, the occupation you choose, the way you raise your children and the way you behave in relationships.

You can use colour and the energy of colour to deepen your understanding of who you are and to tap into the energy that you need for every situation.

Sex, health issues, professions, money and success are all determined by the colour you are and the colours you use.

### WHAT COLOUR ARE YOU?

The Violet Person is an inspiration to humanity. They are linked to the emotional and spiritual balance of the world. Strong Violets have energy resources that they can use to influence mankind.

Orange People make great artists, musicians, diplomats and politicians. They love to be around people and are born healers.

The Blue People are natural teachers and therefore make ideal radio or television personalities and religious leaders. Blue people are good at any profession that requires the written or spoken word.

## Testimonials

Thank you so much for the test results. The two colours the test said I needed - red and violet - also make so much sense to me. It's like I already knew it, but it was astounding to have a stranger tell me that as the result of a questionnaire. I'm very impressed!

**Linnea Pearlman, Ann Arbor, MI**

I recently took the Color Energy Test, just love the whole program. Philip came by to give us a presentation on our charts and interpretations... my energy colors were a complete surprise to me, although they should not be, it really made me see what others see that I had not admitted to myself.

**Shamila Chand, California**

The Yellow CEES module was a little more intense... However I felt very powerful in knowing how to direct the yellow energy in a more positive way. Being a very strong yellow... This module helped me a great deal! Learning to use this chakra as a distribution centre not a control one.... Thanks for the newsletter. I enjoy receiving them. Many thanks for your assistance.

**Sylvia Klose, VA, CEES Student**

Your Basic Colour Energy Course is great! As you know, I have studied and practiced colour for over 20 years. Your presentation, design and interactive approach are excellent.

I feel the power of red energy necklace is very strong, and sometimes I have to take it away.. it is too much! But I'm anxious to test all the other colours!!!

**Iliana Manfredi, Italy**

They are super eye catching!!!! I LOVE them! I can't get over how big they are, as I have seen many, some very cheaply made and then they jack the price. The energy from them is astonishing! I wish I worked there...lol

**Serena Cooper, Atlantis Rising, Winnipeg, MB**

I saw the Alchemy pendants at my friends store and they look very nice. Amazing energy on them. Please add a magenta one to my order.

## Through the Rainbow Chakra CD

**POWERFUL AND UNIQUE... THIS CHAKRA BALANCING CD IS A MUST FOR INVIGORATING AND BALANCING ONE'S ENERGY SYSTEM.**

Created by a famous Norwegian astrologer, writer and musician, Morten Alexander Joramo uses a single note from several octaves in each song. This brilliant series of chakra balancing music was produced so that each song would resonate with a chakra allowing the release of any blockages, freeing the flow of energy throughout the body. Combining vibration with intent, Joramo cleverly incorporates the power of each chakra centre in his music.

For example, the Red energy song utilizes a driving beat projecting Red's motivating and energizing energy. Whereas, the Orange song begins with sounds of a thunderstorm (the water element expressing the flow and movement of the Orange power). This CD is used in yoga, meditation classes and during treatments. An amazing chakra balancing CD!

## Testimonials

I am enjoying the chakra balancing CD very much. I used it to do a treatment on a client last night and combined reflexology with healing touch and worked on each chakra in unison with the music. The client fell asleep for 50 minutes on the table after the treatment and when she woke up she was so relaxed she could hardly get out the door! I was amazed and delighted! I have also used it to go to sleep at night and wake up in the morning feeling like a new person.

**Pam Stroud, Aldergrove, BC**

I did my first session with the new Through the Rainbow CD today and the person saw globes of colour, in different sizes and shapes, floating over her body for about an hour after the session was done. She does not normally see colours that way.

**Richard, Healing Gateways Center, Guilford, CT**

I listened to the music from your CD. What a wonderful gift to us. Thank you for this wonderful music from the Rainbow.

## Colour Nutrition™

Studies have shown that inflammation exacerbates most, if not all, diseases. Normally, inflammation is part of the body's immune response to injury or infection. It helps to kill the pathogens that cause infections, and stimulates the healing process. The problem arises when chronic inflammation is not treated to alleviate the body's excess heat abundance.

When the body can no longer handle the constantly inflamed areas, it eventually begins to facilitate the formation of disease processes. (The Biopulsar technology shows these stages of stress.) Researchers have begun to link inflammation problems to an ever-widening array of chronic diseases such as heart attacks, strokes, high blood pressure, dementia and Alzheimer's. Inflammation can even encourage the proliferation of abnormal cells that transform into cancer.

### WHAT CAN BE DONE TO PREVENT AND REVERSE THE DAMAGE CAUSED BY SYSTEMIC INFLAMMATION?

The best way to maintain the level of cellular health necessary to avoid chronic inflammation is through a regular supplementary protocol—supporting your diet with “colour nutrition.”

In addition to positive dietary and lifestyle choices, an important part of your anti-inflammatory protocol should involve Colour Energy's simple triad of nutritional products:

**Harmonyline's Omega-3** contains fatty acids that excel at quelling inflammation. Research has shown that Omega-3's suppress the production of the chemical messengers of inflammation. When Omega-3 is present in sufficient quantities in the cell envelope, the cell is unable to be transformed into an inflammatory cell – rather it remains neutral. The end result is resistance to the inflammation process, without any side effects.

**Harmonyline's Tri-Salt** helps to produce electrolytes that are critical to maintaining the integrity of the body's cellular structure. Cells use a considerable amount of energy to maintain a proper pH environment. Whenever a deficiency of electrolytes occurs, cells start to lose their ion equilibrium, resulting in significant deterioration and damage. Even slightly acidic conditions cause tissues and organs to become inflamed, eventually leading to chronic disease. When inflammatory conditions are acute, immediate steps need to be taken to relieve the inflammation and its associated pain.

**Harmonyline's Serra-Peptidase** is a multi-functional proteolytic enzyme that dissolves non-living tissues such as fibrin, plaque, blood clots, cysts, as well as all types of inflammation – without harming living tissue. An amazing quality of Serra-Peptidase is its dramatic ability to reduce pain by blocking the release of pain-inducing amines. It works quickly and efficiently, providing patients with prompt pain relief, improving injury recovery times, and relieving swelling, mucous and fibrous conditions.

## Why Choose Harmony Line Brand?

Harmonyline's products are professional grade and therefore of the highest quality on the market. For example:

Harmonyline's Serra-Peptidase is a proprietary high potency enzyme preparation delivering 40,000 IU of micro encapsulated enterically coated granules. Most other brands only offer enterically coated capsules, which are less effective, as they do not allow for proper absorption and utilization by our body.

Harmonyline's Omega-3 oil is produced by one of the world's oldest and most respected Norwegian fish oil manufacturers. Today they are recognized as a world leader in Omega-3 and its manufacturing processes. With more than 160 years of unrivaled expertise and authority in this highly complex field, their unique depth of experience has resulted in a quality Omega-3 product.

Harmonyline's Tri-Salt is formulated to optimally assist the body in maintaining a healthy acid-base balance. The correct ratio of carbonates and bicarbonates of alkaline minerals play a key role in this process, which Harmonyline ensures.

## Chakra Beeswax Candles

Enjoy an elegant, natural honey fragranced candle. Each candle is hand rolled from 100% pure beeswax and is slow burning, smokeless and virtually dripless.

Colour-coded candle therapy is ideal to help increase a chakra meditation. Use the candle as a meditation tool by staring at the flame and affirm that chakra's energy potential. Try a different coloured candle every day as part of your daily meditation ritual!

The lighting of a specific coloured candle amplifies its healing vibrations throughout the atmosphere. Staring into the flame of the coloured candle is a great way to strengthen one's meditation intent.

Before burning you can add a few drops of a COLOUR ENERGY pure essential oil to the top of the candle for a more aromatic fragrance (burning a chakra oil in combination with the colour candle emits a stronger colour energy vibration!).

## Testimonials

I have to tell you how impressed I am with the light bulb. I felt different in just one day, it's amazing. Please send me out 2 more.

**Tab Turner, Windsor, ON**

I couldn't believe that the light bulb lasted 5 years. I didn't have it on all day but definitely several hours a day. When it did burn out I put in a regular bulb and it hurt my eyes. It just wasn't the same.

**Estella, Victoria, BC**

I bought the bulbs to use at home... I noticed that my pets temperaments were calmer and my plants started growing like crazy!

**JK, Michigan**

I can't begin to tell you how much I love my new light bulbs. I put it in my office and the difference is unbelievable. Everybody should experience that kind of light. I heartily endorse it and you can say so to whoever you like.

## Prisma Professional Glasses

Seeing is believing! And visually wearing colour instantly stimulates your optic centre, which then triggers a hormonal response within your body. An excellent alternative to replace regular "non-energy-giving" sunglasses!

Wearing glasses of a certain colour can stimulate your body's energy centres to react and activate body functions on either an emotional, mental, physical or spiritual level. For example, Yellow is known to cleanse the body, increase concentration and spiritually uplift. Yellow is also the best colour for long distance driving and it helps cut down glare from on-coming cars. Red is beneficial for sports enthusiasts to strengthen stamina, increase endurance, ground and to help tap into extra energy. Whereas Violet helps to induce a deep and relaxed state, ideal for people suffering from sleep disorders. The benefits are endless... experience them for yourself! 100% UVA & UVB coated means they can be worn as sunglasses as well.

### WHY WOULD I USE COLOUR ENERGY GLASSES?

We receive 90% of our information through our eyes. Therefore, when we wear certain colours of lenses in eyewear, we are able to see and feel the world through that colour. Simply by wearing the "COLOUR ENERGY" Glasses, the distribution of energy and harmony in the body is influenced (directly by that colour) since the colour acts through the eye directly upon our body's physical, mental and emotional system helping us to improve our overall state of being.

# Colour Energy Glasses

Colour therapy glasses are a convenient way to incorporate colour therapy into your life. Simply put on a pair of these glasses and voilà! Instant colour therapy. Do you need to overcome negative thoughts? Wear red glasses. Do you need intellectual clarity? Wear yellow. Do you need to become calm? Wear blue. Green is good for an overall feeling of well being.

We naturally associate colours with emotions and feelings. We say, "I'm green with envy," or "You're yellow bellied," or "I see red!" or "I'm feeling blue," or "I'm in a black mood." With colour therapy, each colour is associated with particular emotions and feelings.

Colours each have different frequencies and vibrations. When a particular colour frequency enters our body, by wearing colour glasses, for example, that vibration can have an effect on our emotions. It is easy to become out of balance. The appropriate colour may allow our feelings and emotions to return to a balanced state and we'll feel better.

**RED:** Strength, pioneering spirit, courage, alertness, sense of power.

**ORANGE:** Social confidence, cheerfulness, resourcefulness, joyfulness.

**YELLOW:** Focus, concentration, mental clarity, memory, optimism.

**GREEN:** Balance, peace, stress reduction, calmness, self control, hope.

**TURQUOISE:** Openness, confidence, relaxation, soothing feeling.

**BLUE:** Mental relaxation, peace, calmness, clear communication.

**INDIGO:** Imagination, accurate perception, understanding, deep sleep.

**VIOLET (Purple):** Inspiration, calm nerves, reduced irritation, creativity.

**MAGENTA (Rose):** Relaxing, soothing, gentle, balance of emotions.

**BAKER-MILLER PINK:** Calms aggression, stress relief, appetite suppressant.

## Chromalive® Light Technology

To understand the effectiveness of Chromalive Colour Therapy, one must realize that intelligence exists within the body and beyond human comprehension. Every cell at the DNA level communicates with other cells in the body through a sophisticated language of colour light. By using the universal language of colour, imbalances within the body—which exist at the molecular level—can be corrected to restore health to each cell.

Chromalive Colour Therapy is an advanced treatment that can improve one's overall well-being by balancing the body's natural energy frequencies. Chromalive Colour Therapy helps to restore mental, emotional and physical equilibrium.

### CHROMALIVE COLOUR LIGHT THERAPY

Chromalive Therapy treatments are based on Eastern medicine philosophy. The bioenergies (Yin and Yang) become imbalanced if our daily life is constantly stressed. Resultant of too many stresses, the balance of our life energy flow becomes disturbed, illnesses can manifest and the aging process is accelerated. Through the treatment of colour light therapy on the reflex zones or acupuncture points, the bioenergy of the cells and the meridians (energy paths) can be corrected. Subsequently the physical, emotional and mental blockages dissolve and a sense of well-being is restored. Chromalive uses the energy of colour that is amplified with crystalline energy, giving a deep cellular treatment.

### CHOOSE FROM 3 DIFFERENT CHROMALIVE PENLIGHT SETS: BASIC, ELITE GOLD AND ELITE SILVER

Each Chromalive Penlight Set includes: One Penlight and 7 colour filters in the colours of Red, Orange, Yellow, Green, Turquoise, Blue and Magenta; Instruction Booklet; durable Auramed carrying case. The Elite Penlight also includes one punctiform quartz crystal tip as well as one broad quartz crystal tip.

### THE NEW BROAD QUARTZ CRYSTAL DESIGN

Chromalive's new broad tip design allows for wider colour light disbursement. The punctiform tip is ideal for specific zone treatment as the emitting light is a pinpoint frequency. Whereas the broad tip's circumference is approximately 2.5cm/1 1/16" wide, which is excellent for anti-aging facial treatments or full body meridian massage. The specially designed smooth crystal on both the punctiform and broad tip allow for a treatment directly on the skin's surface and by touching the skin the treatment is enhanced through a reflex zone stimulation. This feature is unique to the Chromalive Penlight!

## Biopulsar® Spa Wellness System

For a more personalized colour therapy treatment, it is necessary to accurately measure the energy condition of the client's body. This is done quite simply by using the Biopulsar Wellness System as your assessment tool in conjunction with the Chromalive Penlight.

Using the latest electronics, the bioenergetics of the organs and glands are measured via the reflex zones of the hand and processed by the Biopulsar's software program. Within a few minutes of a hand being placed on the Biopulsar's sensor board, you will see a complete energetic profile displayed on your computer screen (see Step 2 below). The Biopulsar's program shows the energy colours of the individual organs and the energy field of the whole body.

In addition to the biofeedback data, the chromatic therapy instructions are displayed. Individual colour treatments are illustrated for each organs' corresponding face and/or hand reflex zone. Once the body's bioenergetics are measured and displayed then you can apply the corresponding therapy colours over the reflex zones using the Chromalive Penlight. The Chromalive Penlight was especially developed for light therapy applications and is also sold separately.

### BEAUTY AND WELLNESS TREATMENTS IN 3 EASY STEPS USING THE BIOPULSAR TECHNOLOGY WITH COLOUR THERAPY...

## chromalive®

#### STEP 1: BIOFIELD ANALYSIS

The client puts her/his hand on the Biopulsar handplate and within 1-2 minutes an accurate energy analysis of all organs over the reflex zones is measured and shown graphically on the monitor in the corresponding energy colour.

#### STEP 2: THERAPY INSTRUCTIONS

Using the Chromalive software, follow the instructions for the Chromalive beauty and wellness treatment. For each organ a picture is illustrated that shows the precise reflex zone in either the face and/or hand for use of the colour therapy penlight.

#### STEP 3: TREATMENT

The Chromalive Penlight is then applied with the balancing colour over the respective reflex zone in the hand or face for a short radiation treatment and/or massage. Using this method of colour therapy, the energy field can be regulated immediately and the results can be seen on the Biopulsar!

Research has shown that cells not only radiate colour, but can also receive colour. Using reflex zones and acupuncture points as a point of entry for colour, the body's mechanisms seem to respond to and develop with "colour energy." The German physicist Dr. Fritz-Albert Popp proved that the cells of all living beings emit "biophotons" (also referred to as light quanta). This radiation represents a regulating energy field, which influences the total biochemical processes within us.

## Testimonials

After 10 years of chronic pain in my neck from an auto accident I am almost completely pain free after three days of treatment using the Chromalive Penlight.

## WHO CAN USE THE BIOPULSAR-REFLEXOGRAPH?

The Biopulsar biofeedback system is highly beneficial for medical doctors and a wide variety of alternative practitioners. The reliability of the organ biofeedback is superior in comparison to other more expensive diagnostic tools with less reading capabilities. The advantage of the Biopulsar is its cost as well as its ability to integrate a conventional examination with a holistic diagnosis and approach. In fact, no other technology is as accurate or so deeply accesses the "colour" psyche of an organ and its health, as the Biopulsar.

## Testimonials

...Chronic sickness in the organs always shows, and is also confirmed by new patients. The results were also constant, when placing the left hand repeatedly on the machine. This means that the arrangement of the measuring points are reliable. Another point is the repeated measurements. Here it shows clearly which organs and chakras are chronically stressed and the therapeutic success or failure is documented. A great help for necessary therapeutic adjustments... The accuracy of the test of the chakras also seems to be correct... again and again, it shows that the psychology of the prime colours were confirmed by the patient.

**Martin V. Gutjahr, Naturopath Doctor**

## Biopulsar-Reflexograph® System

The Biopulsar-Reflexograph is the most advanced aura diagnostic tool in the world! The Biopulsar is a simple and accurate method of analysis for the health care practitioner. As well, the Biopulsar technology can be used as a bridge to integrate conventional and alternative methods.

This incredible holistic reflex-zone biofeedback system reads the energy of 46 organs, which then expresses the body's vitality in colour and in several graphic formats. The system shows the full body aura as well as the energy of the chakra system and the vitality of 46 organs (including 8 brain parts).

## State-of-the-Art Technology

Proven through various sciences of body language we know that organs possess a consciousness and that they react to thought and emotion. This consciousness is stored in every cell of the body and is detectable by using the Biopulsar technology. The Biopulsar-Reflexograph complements any holistic business and is a powerful tool in showing how the mind interacts with the psyche of the body. Therefore, the Biopulsar is an excellent tool to validate your treatments, products and services! (And clients appreciate the visual – seeing is believing!)

Good health is essential for a long and happy life; however, we usually only appreciate its importance when we feel poorly. Early detection of imbalances in the body can prevent problems later including premature aging. This is where the Biopulsar-Reflexograph System can contribute to one's good health through its reliable early screening technology.

The Biopulsar System allows you to monitor your client's vital organs regularly, which will help you detect imbalances and treat any energetic problems before they manifest on the physical level!

## Aura Cleanser

This Essence is a highly effective patterned recipe formulated to erase negativity from in and around us on many distinct energy levels (an excellent personal Feng Shui tool to help you attract more positive things into your life). Aura Cleanser encourages energetic responses from your multi-levels of consciousness, clearing any negative threat, psychic or otherwise. Also helps to heal damaged human electromagnetic energy fields (auras that have holes), resultant from destructive frequencies (cell phones, computers, etc.) and can help with depression and serious imbalances.

### FLUFF UP YOUR AURA WITH COLOUR ENERGY'S HIGH FREQUENCY ELECTROMAGNETIC AURA CLEANSER!

Aura Cleanser can be used very simply by spraying directly above the head or to cleanse any room... great to use in therapy treatments and offices. Clean your work or home space and dispel any unnecessary lower energy frequencies such as negativity and other harmful rays. Therapists should be aware that each client in some way will leave traces of energy in your treatment room. Aura Cleanser can also be used for purifying and cleansing gemstones and crystals.

## Rainbow Serpent

This incredible Alchemy Essence was created to awaken the Kundalini (Serpent) energy. Often our vital energy lies dormant at the base of the spine until it is called into action. The Rainbow Serpent Essence will help lift one's Kundalini up the spine, touching and invigorating all of the physical Chakras together with their appropriate colour energy frequencies, thus allowing one to utilize and access one's higher levels of consciousness to attain enlightenment.

This spray Essence can also help to bring about a deep alignment of all the chakras, releasing any hindrances that may be retarding one's growth. However, if the energy stops and becomes stuck, it can be released by applying the appropriate Chakra Light Essence or Massage Oil.

The Aura Cleanser is dynamite. Clears up and promotes clarity when confused, was one response I got from a student unable to make a decision. I sprayed over her head; she sat for a moment and then became clear. It is wonderful. Blessings,

We use the Aura Cleanser on clients who have their polarity reversed. Instantly we can see the shift as well it distinctly shows up in their aura and organ vitality as more balanced.

**Lee Rosanno, Biopulsar Owner & Medical Clairvoyant & John McLaughlin, Naturopathic Doctor, Rochester Hills, MI**

Last week I was in Cornwall and saw a sample bottle of Aura Cleanser in a store. I had not been feeling well for weeks and had no energy. I decided to try it. Within 30 minutes I started to feel much better and was like that for the rest of the day. Great Product!!! I bought a bottle of Guardian Angel Essence Roll-On. It worked wonders also!

#### WHAT ARE ESSENCES?

Essences are living energies of specialty herbs and essential oils, charged with the healing power of crystalline structures. Chakra Light Essences are made by using an Alchemy process that includes coded information from crystals, essential oils, flowers, herbs, geometric patterns, cosmic vibrations, planetary frequencies and colour. Chakra Light Essences have been designed to open your energy centres, so that they are functioning actively, radiantly and strongly.

## Testimonials

I wish to tell you that some of my clients have had some major breakthroughs using the Chakra Essences. At the moment I am only working regularly with base (red). In any case, I am excited to use the Essences. You have such a great company. I feel privileged to work with you. Thanks,

**Rhonda Day-Kooy, Blue Feather Books, IL**

I'm loving the Chakra Light Essences and have been passing the small brochures on to other healers.

**ALCHEMY** is a method to transform matter. COLOUR ENERGY'S ALCHEMY LINE consists of cosmic elixirs that were made to prolong one's existence at an optimal energy level of being.

**ESSENCE** is the intrinsic nature or indispensable quality of something. COLOUR ENERGY'S ALCHEMY ESSENCES contain quintessential universal components required to heal body, mind & spirit.

**KARMA** is the sum of a person's actions in this and previous states of existence, which is believed to impact one's fate in future existences. KARMA LIGHT ESSENCES were created to help a person stay connected to their purpose and path.

## Karma Light Essences

The Karma Light line is designed with a specific pattern link to reorganize the Karmic program that you have been working with and learning from. These Essences are highly imprinted to transfer codes, patterns and harmonic structures for the repatterning and harmonizing of your many subtle levels, including past life links. Also helps to clear specific blockages and to re-establish your inner "Blueprint." Clears negative Karmic energy and replaces it with positive energy pathways.

**TRANSMUTE** – Helps clear "personal" hindrances to achieving one's life purpose by initiating transformation on different levels of consciousness. E.g. behavioural patterns such as insecurity and doubt, subconscious blocks that one is unaware of, as well as "Karmic" conditions that are no longer relevant.

**TRANSITION** – Eases fear, protects from disturbing influences and promotes coming to terms with relationship problems. Learning to make peace by promoting acceptance, forgiveness and love. Helps support transitions in life such as retirement, moving, job loss and death. Attunes one with her/his spiritual levels.

**RELEASE** – Activates the release of stored emotional patterns such as shock, anger, fear, etc. from recent or past experiences including: pre-birth and birth trauma; psychological 'crutches' and phobias which prevent one from advancing in a balanced way; and physical toxins stored in the tissues.

**RE-NEW-ALL** – Is patterned to respond to distorted genetically coded information linked to past life experiences, helping to clear blocked pathways to re-establish more tenable links to this particular lifetime.

**COMFORT** – Provides emotional balance and support for those who are grieving the loss of a loved one, a relationship, work, etc. This Essence is patterned to help one personally deal with grief and brings easier acceptance of the loss.

## Chakra Light Massage Oils

The Chakra Light range of massage oils has been developed and energized with a code storing and transmitting function, so as to work through the total being on its many levels of consciousness, passing coded messages primarily to facilitate harmony with the physical. Chakra Light massage oils are based on superfine receptive mineral oils, which have a very good memory to be able to carry their projected programs with integrity, to be released on the appropriate levels. Helping to unlock blocks, as well as accessing one's higher levels, which can then produce energetic responses from one's cellular levels.

## Sound Essences

**Sound Essences are vibrational remedies that have been charged with chakra specific sound waves to help balance the energy body.**

Everything in the universe is in a state of vibration, including each of us. Life is sound and sound brings life to the earth, which is why using the power of sound energy is one of the simplest and most effective methods of balancing the body's energy system.

Chakra Sound Essences embrace the healing vibrations, which are found in: Sound, Colour, Crystals and Gems, Positive Word Affirmations, Sacred Geometry, Symbols and Aroma. These healing vibrations interact with the physical and energetic body to produce full spectrum vibrational healing for chakra balancing. Aware or unaware, visible or invisible, these vibrational remedies impact us powerfully. It is through using the full spectrum of vibration that the true essence of our being is found.

### Aura Joy

Aura Joy is a unique vibrational therapy in that it carries the imprint of 12 notes, the seven whole notes that correspond to the seven main chakras and the five semitones that serve as vibrational bridges for the whole notes. Aura Joy is a full spectrum vibrational remedy restoring balance to the body as it embraces the seven aspects of healing vibration found in Sound, Colour, Aroma, Crystals and Gems, Ancient Symbols, Sacred Geometry and Positive Word Affirmations. When these seven aspects of vibrational healing are harnessed together and brought into our lives through Aura Joy, they bring joy, vitality, balance and a renewed zest for life.

Aura Joy can be used anywhere at any time for anything. Use it as a pick-me-up aromatherapy spray, or if feeling out of sorts. If there is emotional turmoil or trauma, Aura Joy helps to positively shift the emotions.

### Chakra Sound Essences

Chakra Sound Essences are subtle energy remedies created from the healing vibration of sound from the crystal bowls. These essences are charged with colour and sound vibrations as well as with the information imprint of chosen crystals and gemstones, sacred geometry, ancient symbology, and positive word vibrations.

The whole notes C, D, E, F, G, A, and B resonate with the seven main chakras. The five semitones C#, Eb, F#, G#, and Bb are bridges for the seven chakras located on the back of the body supporting the transitional aspects of the spine.

## More Sound Essences Meridian Sound Essences

Elemental Sound essences are meridian paired essences relating to the Five Element Theory: Fire, Earth, Metal, Water, and Wood. Each Elemental Sound Essence has the yin and yang component for making seven essences for the fourteen meridians. The Fire Element consists of four meridians, two sub-elements of Ministerial Fire relating to the Heart and Small Intestine meridians, and Sovereign Fire relating to the Circulation/Sex and Triple Warmer meridians. Earth relates to Spleen and Stomach meridians, Metal relates to Lung and Large Intestine meridians, Water relates to Kidney and Bladder meridians, and Wood relates to Liver and Gall Bladder meridians. Central and Governing meridians combined complete the set of seven.

Elemental Sound Essences can be placed anywhere directly on the skin. Some believe that placing a drop of Elemental Sound Essence on the beginning or end of the meridian will further enhance its value.

## Chakra Incense

Incense is an ancient art of blending together fragrant gifts of nature conducive for transport and release. Resins, herbs, spices, oils, flowers, leaves and barks are gathered and combined (using traditional formulas) to create Colour Energy's line of Ayurvedic incense sticks.

Using our incense allows the user to be transported. Incense stimulates and heightens the sense of smell. Incense can be used to awaken and to create pleasant dreams, to revitalize and to sooth, to heal and calm the emotions, to centre the mind and enhance meditation, to uplift and energize, to clear scattered thoughts and to be at peace.
