## THE MIND/BODY CONNECTION

The body is composed of organs and glands, each with their own specific task. A holistic health approach recognizes that our organs not only have their physical function but also operate on a mental and emotional level. For example, the throat area (chakra) has the task of communicating on a vocal level. Our throat has the ability to verbalize our thoughts, feelings and spiritual beliefs; however, we do not always allow it to do that. We hold back from expressing our ideas, emotions and beliefs. Perhaps because we are afraid to show other people our true feelings and inner being. In doing so we block the flow of our energy. On a physical level this can cause disharmony in the throat chakra centre, which may in turn give us a sore throat, stiffness in the neck, shoulder pain, lockjaw, etc.

The Biopulsar Reflexograph® Technology, an advanced energy diagnostic system, allows us to analyze how our thoughts participate in creating our physical and emotional reality. Technology can show how a positive or negative thought can influence the different body organs to be either stronger or weaker as well as change one's aura colours accordingly.

This proves the philosophy that whatever you think in turn will influence your body's flow of energy (both physically and energetically). And if during your life you had reoccurring "negative" thoughts or experiences then these repetitive influences may have created deep energy "blockages" throughout your body. Understanding your physical symptoms is instrumental in helping you to change your bad thought habits so that you can improve your wellbeing. (We recommend regular Biopulsar scans.)

Using the science of body language we can learn what thoughts may be causing certain physical problems as different thoughts tend to restrict the energy flow in certain parts of the body. This means that every body organ contains a similar thought pattern and once we recognize a physical symptom then we can determine the root cause. A Biopulsar reading will help to show you the areas in the body that are weaker and any possible psychological problems. Also, you can read the "Introduction to Colour Energy" booklet to help you understand the mind/body connection.

There are several other factors that can also program one's body and energetic flow: hereditary issues, nutrition, environment, profession, to name a few. If you can recognize influences that have or may still be hindering your energy, then you can further learn how to support yourself.

By understanding how your energy is influenced and by making the right lifestyle choices, it enables you to reprogram your thoughts and beliefs into a more positive energy flow.

Colour Energy focuses on teaching the connection of your body, mind and spirit through using a simple colour-coded system. When you understand what chakra governs the various thoughts, emotions and body organs then you can easily understand what exercises or tools you can use to support these areas.

The first thing that we suggest is to make healthier lifestyle choices that will positively affect your body and mind. Nowadays, with all the toxicity in our environment and in our foods we must work harder at keeping our body free from pollutants. In fact, the organ that we constantly see at a low vitality level on the Biopulsar System is the armpit organ. This is the area where toxins tend to accumulate resultant from blocking our pores with low quality deodorants. As well we tend to mask our body's odors, which in essence is our body's way of telling us where we need to focus our attention.

In body language the armpit is the area connected to expressing our truths and emotions. The armpit houses most of our lymph nodes and is connected to our thymus gland.

A simple method to support the release of toxins is by using Colour Energy's Natural Liquid Deodorant. Our deodorant is safe to use as the molecules of the liquid have a negative ionic charge that makes it unable to pass through the cell wall. Since the deodorant is not absorbed into the body it is totally safe to use. As well, you can use therapeutic essential oils to support your lymph system such as Colour Energy's Bergamot or Grapefruit oils.

There are many quality tools that support our body's organs, chakras and aura. So start making the changes in your life that will energize the areas that have been problematic; thereby, strengthening your weaker chakra centres and expanding your aura!

## Colour Vibration & the Zodiacal Signs

### GEMINI – ORANGE

MAY 21st - JUNE 19th

Gemini is the sign of duality and the energy that represents opposite polarities. As the sign of the twins it signifies the present phase of evolution (alternating between life and death, happiness and sadness, health and sickness, plenty and poverty, yin and yang, black and white, etc.).

The Gemini energy can be very persistent and enthusiastic and it has the ability to think outside of the box. However, when unbalanced it can be very demanding and act childish.

**THE FUNCTION OF OUR ORANGE ENERGY IS TO FIND THE HARMONY IN OUR CREATIVE, FEELING AND SENSING CHAKRA CENTRE. THIS CAN BE ACCOMPLISHED BY ALLOWING OUR FEMININE ENERGY TO BE EXPRESSED AND NOT REPRESSED!**

ORANGE is cheerful, spontaneous, and playful, allowing you to be in your creative flow! Use ORANGE tools to bring out the joy in life, as it is the colour of our inner child. The carnelian gemstone has been used to release negativity. COLOUR ENERGY's ORANGE Blend, Melissa, ORANGE or Neroli are oils that have an uplifting and invigorating aroma. Imagine the power when added to an ORANGE COLOUR BATH together with happy music and a glass of pure carrot juice. Wearing our ORANGE colour therapy glasses daily as regular sunglasses will help you to see the world more positively and joyfully (ideal to combat depression and emotional instability).

### CANCER – YELLOW/ORANGE

JUNE 21st - July 20th

People born under the sign of Cancer are very mentally creative. They understand the relationship between their emotions at any given moment and incoming information. Cancer has a strong "felt" sense of what is right. Judgment is usually based on a gut feeling that a certain direction is best. The ORANGE/YELLOW person is never boring, as s/he can be both knowledgeable and at the same time very entertaining. The nature of Cancer is to uplift others and share innovative ideas.

**THE PURPOSE OF THE ORANGE/YELLOW ENERGY IS TO FACE LIFE'S CONFLICTS HEAD ON AND DEAL WITH ONE'S FINANCIAL RESPONSIBILITIES.**

ORANGE is the energy that connects to one's sensing abilities and YELLOW is the colour of knowledge and clarity. Combined ORANGE/YELLOW allows one to "go" with the flow and at the same time give new ideas. Great for helping one to release rigid patterns and habits. Mix one cap ORANGE and one cap YELLOW Colour Bath together and create a beautiful peach bath experience. A peach coloured bath will support the deep release of toxins.

Other ORANGE/YELLOW tools would be Colour Energy's Bergamot oil mixed with ORANGE for a nice uplifting blend. Also CE's Melissa Mix is a combination of ORANGE and YELLOW essential oils.

Lighter coloured foods such as Apricots, Peaches, Cantaloupes and Yam are the ORANGE/YELLOW energy.
