## GREEN IS FOR ST. PATRICK'S DAY!

The true meaning of St. Patrick's day is spiritual regeneration. In fact, one of the most enduring tales of St. Patrick is that he used the shamrock to explain the mystery of the Trinity. He did this by comparing the three leaves with the Father, Son and Holy Spirit. The trinity symbol also represents the body, mind & soul.

This day is traditionally associated with the colour green. We can use the spirit of the green energy to nurture and love ourselves, and to adopt a more green philosophy by "going green" and making our own "luck."

One thing to remember about the green energy is that it supports the heart chakra, which is where your spiritual energy centres connect to your more physical chakras. If your heart chakra is out of balance it may mean that you have little self-love or more misfortunes in the love department (including not attracting abundance & prosperity into your life). When your soul essence is struggling with your current values and life situations this can create conflict in your green centre.

By understanding how the colour green can help you balance your heart chakra and resolve heartfelt issues, you can allow unconditional love, health and wealth to be a part of your life. But if your green centre is out of harmony then energies connected to the heart will not be able to flow into it.

The Green energy breathes new life into your being, giving you a feeling of renewed existence. And going green will help nurture the earth so it can sustain us and our children for generations to come!

## GO GREEN

**What are you doing to help your environment?**

**Colour Energy is proactive in offering eco-friendly products, free of chemicals, parabens and other harmful additives. As well, we use environmental packaging (recycled or recyclable).**

When Inger Naess first created the concept of Colour Energy, her vision was to provide people with products that would support the body, mind & soul on a deep cellular level. This meant developing products that would

not harm humans or Gaia. As Colour Energy continues to grow it is important to us that we continue creating products that are safe to use and do not interfere with our energy or the earth's.

*Currently we offer:*

### **Dead Sea Salts**

Natural salts from the Dead Sea help facilitate the release of toxins and at the same time replenish your body with minerals.

**Professional Grade Essential Oils** – Our 100% pure essential oils are free of chemicals and additives, which ensures that you will reap the healing benefits of each plant and flower essence!

**Floral Water** – Instead of using chemical air fresheners try using a floral water spray. Floral water, also known as a hydrosol, is the oil imbedded water made during the essential oil steam distillation process. Rose water is a divine room spray and you can use it as a facial toner.

**Carrier Oils** – Using a natural carrier oil on your face or body replenishes your skin with the nutritional benefits of the oil. For example, jojoba oil is similar to your own body's natural oil, and rosehip oil is known to repair damaged skin caused by eczema, psoriasis, scarring, burns, aging, etc.

### **Unscented All Natural Deodorant**

Don't block your pores by using deodorant sticks that leave a film. Use Colour Energy's mineral deodorant that really works and allows your body to breathe and release toxins. Clogging pores under your arms can result in cysts and other serious symptoms. Our natural deodorant is recommended by the Mayo Clinic.

**Unscented Shampoo, Conditioner, Bubble Bath & Shower Gel** – Most body care products contain harmful chemical preservatives and fragrances. Our body care line is free of parabens and other harsh chemicals. Add several drops of CE pure essential oils or blends to enhance the experience.

### **Unscented All Natural Moisturizing**

**Lotion** – Using a 100% pure and clean moisturizing lotion allows your skin to breathe. When a skin care product contains chemical preservatives it accelerates the aging process. When your body has to work harder

to eliminate toxins in facial creams and body lotions, the stress will cause your skin to look tired and lifeless. Our natural body lotion is safe to use on all skin types.

### **100% Pure Beeswax Chakra Candles**

Did you know that paraffin candles are as dangerous to your respiratory system as second-hand smoke? Paraffin is a waste product of petroleum and releases carcinogenic toxins when it burns. Our 100% beeswax candles are free from harmful pollutants and come in all 7 colours of the rainbow.

**Chakra Silk Scarves** – Zohara's beautiful and vibrant silk chakra scarves are hand-dyed using environmentally friendly water-based pigments, then signed by the artist to create a truly one-of-a-kind gift. The sensuality of coloured silk pleases the wearer in a delightful and sensory way.

### **Chakra Silk Eye/Body Pillows**

Made with organic lavender blossoms and flax seeds, our pillows exude luxury. Use our eye/body pillows to help reduce stress. Simply place the pillow over your eyes and breathe in the calming aroma of the lavender blossoms.

## Colour Vibration & the Zodiacal Signs

### PISCES — MAGENTA

FEBRUARY 21st - MARCH 20th

**THE FUNCTION OF THE MAGENTA ENERGY IS TO CONNECT YOU TO THE COSMIC ENERGIES. THE MAGENTA COLOUR WILL BRING YOU IN CONTACT WITH THE COSMOS, WHICH IS FAR BEYOND THE EARTHLY PLANE.**

The Piscean person is effective in both body and spirit connection. They often feel that they have a mission to help others and they do this without wanting anything in return. People born in this zodiac period have the tendency to be actively involved in many causes. Pisceans have the presence of RED's fire as well as the VIOLET's visions. They can be very successful in tasks that combine both their zest for life and humanitarian issues; however, if they only work at satisfying their own pleasures they will feel a lack of inner guidance.

This energy—MAGENTA—is associated with awakening your heavenly links that are beyond the physical earth and will help promote a deeper self-confidence through self-identity, creating a willingness in you to serve mankind in altruistic ways.

The MAGENTA energy is not found in many earthly things. Colour Energy is now carrying an Essence created by the famous alchemist Anthony Cooper of England. This Essence has been specifically created to help you to open up and channel the cosmic vibration.

### ARIES — RED

MARCH 21st - APRIL 19th

**THE FUNCTION OF THE RED ENERGY IS TO CONNECT YOU TO YOUR PHYSICAL BODY, EARTH'S REALITY AND YOUR EXISTENCE.**

The ray of Aries is RED, the cosmic colour of life. Aries are dynamic people with an abundance of vitality and they like to help the weak.

The keynote of Aries is activity, manifesting in the material plane in their ambition, initiative and creativity, and on the higher plane as spiritual adventuring pioneers searching for a better world for all humanity. Aries are generally the most stimulating of all zodiacal signs on both the physical and spiritual levels. When unbalanced they can be demanding and neglect their emotional needs.

Use the RED energy to give you physical strength and endurance. RED energy is found in many foods such as tomatoes, cranberries, beets, cherries, etc. Place a RED gemstone (RED Tiger's Eye, Garnet or Ruby) in your pocket for grounding. COLOUR ENERGY RED oils are ylang ylang, sandalwood, juniper, cinnamon, vetiver or CE's Root Chakra Energy blend. Add a few drops of a RED oil to a RED COLOUR BATH or place a few drops of a RED oil or RED Chakra Light essence on the soles of your feet. The RED nutritional correlation is ginseng, echinacea, cayenne pepper, iron, goldenseal and ginger. Boost your vitality with some RED power today! ☯
